How can introducing meeting room booking save real estate costs?

Meeting rooms in a traditional workplace are around 44 percent* utilised. Condeco meeting room booking software and meeting room screens enable companies to easily measure and manage each of their rooms. Using our detailed reports you can identify your average room utilization. This information can help you reduce the amount of meeting rooms while raising utilization across your whole estate. We aim to help companies achieve an average meeting room utilization rate of 80 percent or more.

The general example below shows how the number of meeting rooms in a traditional workplace can be reduced by enabling a more efficient and effective provision of meeting space. The subsequent real estate savings that can be made by contraction of space needs, based on average total cost of meeting room space.

* Condeco Sense Study 2018 June – 2018 June, 73,000 spaces measured across 94 buildings and 430 floors.
Example.

Number of employees 5,000
Number of meeting rooms 250
Average cost of a meeting room $20,000*

250 rooms x $20,000 per room Total annual room cost of $5,000,000

With Condeco Meeting Room Booking

You can reduce the amount of rooms to 138 whilst increasing your room utilisation to 80%.

Total Condeco investment

Based on:
- Average price of software and hardware as a service cost per room per annum: $500
- No. of rooms required 138 x $500 = $69,000 (year one)

Year one spend $69,000
Potential saving $2,171,000

- Agile work that flows with multiple booking methods
- Workspace that works harder by making better use of space
- More choice, happier staff by giving employees more freedom and choice in their workplace
- Monitor and measure and make better, data-based planning decisions

How can introducing desk booking save real estate costs?

A traditional workplace will have a 1:1 desk to employee ratio. Condeco desk booking helps you create and manage a more flexible environment that is better utilized. We give you the tools and data to implement and manage desk sharing and activity-based working schemes; helping you create a better workplace experience for an agile workforce. The user-friendly application makes it easy for staff to find and reserve a workspace that meets their needs, find people in the building and manage workspace bookings.

The general example below shows with fewer fixed workstations you can make better use of space: drive space efficiency savings or improve the overall experience by offering more shared space. Outlining how the subsequent real estate savings can be made by contraction of space needed to serve your employees, based on average total cost of providing a desk space.

**Example.**

**Number of employees**
5,000

**Total cost of desk (per year)**
$18,000*

5,000 desks x $18,000 desk costs

Total annual desk cost of $90,000,000

**With Condeco Desk Booking**

You can reduce the amount of desks to 3,500 by implementing 10 desks for every seven people sharing scheme.

**Total Condeco investment**

Based on:
- Average cost of desk and screen license as a service $96 per desk per annum
- Desks required 3,500 x cost per desk $96 = $336,000 (year one)

**Year one spend**
$336,000

**Potential saving**
$26,664,000
